MILLICARE RECEIVES SECOND CRI SEAL OF APPROVAL

LaGRANGE, Ga., July 26, 2006 – MilliCare’s Premist NXT, a proprietary cleaning agent for carpet and textile maintenance, has received a Seal of Approval from the Carpet and Rug Institute (CRI).

The combination of Premist NXT and Dry Carpet Cleaner, another MilliCare cleaning agent, had previously received certification as a spot cleaning system, but the new seal extends the premist’s approved use to general carpet maintenance and cleaning.

“The tests confirm that our pre-mist is a very effective, safe product for general carpet maintenance,” said Stephen Lewis, MilliCare’s technical director. “The dual certification proves that Premist NXT works exceptionally well when used for general carpet maintenance, and as a spot cleaner when used with the Dry Carpet Cleaner.”

Products certified with a Seal of Approval for spot removal are tested by the Professional Testing Laboratory of Dalton, Ga. for their rate of resoil and their stain removing power.

Certified pre-spray and in-tank products must show the ability to improve carpet appearance by removing dirt, and also must demonstrate an acceptably low rate of resoil.

MilliCare Earns Gold Seal/add one

CRI, a national trade organization of carpet manufacturers, raw materials suppliers and maintenance companies, created the Seal of Approval program to help consumers and companies choose effective carpet cleaning methods that do not damage or prematurely age carpet. The institute's independent testing laboratory judges entries with parameters including efficacy, resoiling rates, pH, optical brighteners and colorfastness to light.

About MilliCare

Headquartered in LaGrange, Ga., MilliCare provides textile and carpet cleaning services internationally for corporate facilities, hotels, casinos, healthcare, government agencies, airports, convention centers and assembly space, education facilities and other public places. MilliCare provides facility managers with the products, services and consultation support they need to implement long-term maintenance plans that enhance commercial space brand impression, improve operational efficiencies and prolong the life-cycles of textiles and carpet. The company's global network of more than 80 franchise partners consists of an integrated team of cleaning, manufacturing, retailing and other business professionals.
